

## **Inclement Weather Procedures**

As winter approaches and temperatures drop we must prepare for Increment weather and how it effects our schools delays and closures. Listed below is the policies and procedures that Lifegate School follows.

The Principal (Mrs. Wickwire) will make a decision by 6:00am and report to the TV Stations. **Please check your local stations for delays and closures.** She will then call Linda to put information on our Phone Announcement. Please check the phone announcement before driving out to school. All staff members will be notified by text from Mrs. Wickwire before 7:00am. We will follow Harrisburg School District closures but please understand that often times they are slow in making their decision as well as the TV stations on putting our information on the scroll. Please be sure to check the school announcement always, before coming out to school. Call **541-689-5847** for accurate and current information.

Parents please consider what's safe for you and your student when making your decision on your student's attendance. If you feel that it is unsafe for you and choose to not bring your student to school, please call the school office to notify of your students absence or tardy. (Leave a message if needed)

Thank you,

Lifegate Christian School
